

Don't text while your driving...when you're drunk  
and you've got a couple pounds of marijuana in the trunk  
when the roads are slick and icy  
that can be just a little bit dicey  
So, don't text while your driving when you're drunk

There are lots of things we know we shouldn't do  
But you can mostly get away with maybe one or two  
More than that and, pretty much, you're sunk  
So, don't text while you're driving when you're drunk

Though we don't talk much about it as a rule  
there's lots of people pee in swimming pools  
but Jesus Christ and Oh, my lord  
not when you're on the diving board!  
everybody knows that isn't cool

Don't go out driving in the snow  
just to see how far north that old road goes  
that's not too much to ask  
from someone living in Nome, Alaska  
when the temperature is 17 below

Don't text while you're driving when you're drunk  
and you've got a couple pounds of marijuana in the trunk  
when the roads are slick and icy  
that might be just a little bit dicey  
Don't text while you're driving when you're drunk

### **For Sam, on his 9th Birthday**

I want you to be a stand-up guy  
I want you to look people in the eye  
I want you to play both hard, and fair  
I want you to be polite and share  
I want you to study and be real smart  
and to be happy and follow your heart  
I want you to have a wonderful life  
find a beautiful woman and make her your wife  
One who will love you your whole life long  
Whether you're right or whether you're wrong  
who'll be a good mother to your kids  
just the way your Daddy did
